Genuine
GIANT
MASTODON

The Genuine Giant Mastodon is the King of the Everbearers, planted all over America and making good everywhere. Our selected strain produces enormously large berries of fine flavor, within ninety days after planting and continue until freezing weather. Just think, you plant this spring and pick lots of large delicious berries this summer and fall. Then next year, it will bear large crops spring, summer and fall. It stands hot dry weather better than other everbearers.

Why Buy Strawberries?
Grow Your Own Fruit

Our hardy, northern grown strawberry plants are grown on specially selected and prepared ground so as to produce strong vigorous plants with heavy root system. They are handled carefully and shipped to you freshly dug. Home grown strawberries taste better, and it takes only a small piece of ground to supply enough berries for a family. Plant as early in the spring as you can.

JUNE BEARING VARIETIES

SENATOR DUNLAP—For home use this variety has never been surpassed. It is more widely planted than any other because it does well and produces heavily everywhere. The berries are good size, firm and most delicious flavor. Don't fail to set out some as they bear when others fail. New low prices

BLAKEMORE

BLAKEMORE—We have tested this variety and recommend it highly. The berries are large, an attractive red color, high quality, heavy bearer, good keeper, firm, stems very easily. It is the best variety for canning and preserving because the berries hold their shape and color. It stands dry weather and the berries do not get small but hold their size. It is a very thrifty, vigorous grower. New low prices

Springfield, Mo.

I want to tell you about our Mastodon strawberries we got from you. We set them out on the 22nd of March and today, the 18th of April they are in bloom. I notice you say they will bear in 90 days after setting so I just thought I would tell you how much ours are ahead of your schedule. We are well pleased with every thing we have ordered from you. Mrs. W. R. Bradshaw.

Dundee, Iowa.

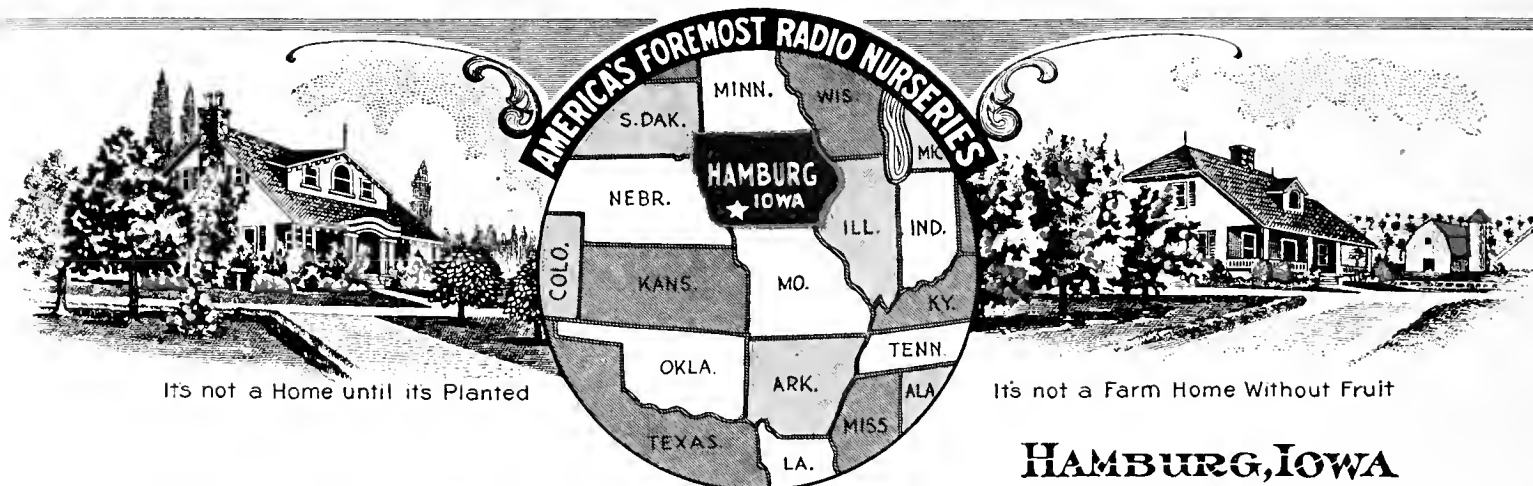

They were the best strawberry plants I ever got and never lost a one. We sure gathered a lot of fruit and such big berries. Mrs. Theo. Bandy.

Bosworth, Mo.

This is my 21st order. I sure think your stock is fine and wonderful. Mrs. Jarde McWilliams.

INTER-STATE NURSERIES

HAMBURG, IOWA

• let us help you make living easier

A home surrounded by beauty, with a garden of fruit and a garden of vegetables, means a thrifty, healthy, happy home.

When you buy fruit and vegetables, you eat them and they are gone, nothing to show for the money you spent. But when you take that same money and buy nursery stock and seeds,

you will get back your money's worth many, many times over. So keep in mind that when you buy nursery stock and seeds, you are not spending, YOU ARE SAVING.

Every home has room for some fruit and some vegetables. Times like these show us forcibly how important it is for us to produce on our own place as much of our living as we can. By growing your own fruit and vegetables, you can greatly reduce your living expenses and at the same time live better.

• we are proud of this book • it was printed to help you

You who have been receiving our books, have noticed that each year we have been improving them. We believe that this one is the finest annual nursery and seed book ever printed.

We could have printed a book not nearly so good. We could have used cheaper paper, cheaper ink, printed all or most of it in one color.

BUT IT IS OUR POLICY TO DO EVERYTHING IN THE BEST POSSIBLE WAY. We used good paper and good ink. We printed most of the pictures in their natural colors.

We did this in order to help you. No one can describe in words exactly how a fruit, a rose, or a shrub looks. But when you see it pictured in color, then you CAN SELECT EXACTLY WHAT YOU WANT AND WHAT YOU NEED.

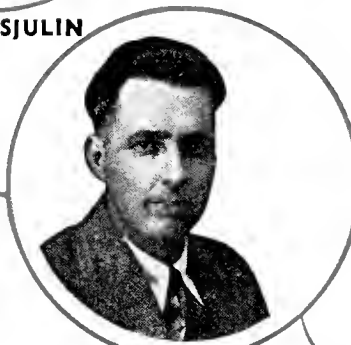

It is just the same way with our nursery stock and seeds. We could cut costs in many ways. We could use a cheap wrapping paper, a cheap pack-

BILLY SJULIN

LES SJULIN

DAVE SJULIN

The three Sjulin Brothers, Billy, Les and Dave, who own and operate the Inter-State Nurseries have been in the nursery business all their lives, starting in 1899. At first we worked for one of the world's greatest wholesale nurseries, working right out in the fields and also in the office. Fifteen years ago we started our own nursery at Hamburg, Iowa. By our own efforts, today we are America's Foremost Radio Nurseries and a very large factor in the selling of nursery stock in this great middle west. This is not said boastfully but rather in the spirit that we realize that this leadership carries with it an increasing responsibility to our many thousands of customers. We have attained this position because it is our honest endeavor to send you only the highest quality stock at reasonable prices, to help you to MAKE YOUR HOME GROUNDS MORE FRUITFUL AND MORE BEAUTIFUL. We believe that the most important work all of us have to do, is to maintain a home for our family. If we can help you in that work, in a smaller or larger measure, then we are very thankful.

ing material. We could save money in our field work. We could be less particular in our grading. These are all things that perhaps you would not notice. BUT ALL OF THEM WOULD HURT THE QUALITY OF OUR STOCK. So instead of seeing how cheaply we can produce and pack, WE ARE DOING OUR UTMOST TO PRODUCE THE BEST AND PACK IT THE BEST. YOUR SUCCESS DEPENDS ENTIRELY UPON HOW WE GROW AND HANDLE THIS STOCK AND OUR SUCCESS DEPENDS ON YOUR SUCCESS, and that is why WE DO IT THE BEST POSSIBLE WAY.

The fact that our business is growing so rapidly, that we have attained leadership in our field, PROVES THAT OUR POLICY IS RIGHT. Also the fact that we are specialists, handling only nursery stock and seeds, enables us to give you better stock and service.

Please remember that our nursery stock and our seeds are in keeping with this book. THEY ARE THE FINEST OBTAINABLE. AND YET, BECAUSE WE GROW OUR OWN STOCK IN LARGE QUANTITIES AND BECAUSE WE SELL IT DIRECTLY TO YOU, OUR PRICES ARE LOW.

INTER-STATE NURSERY STOCK AND SEEDS ARE GUARANTEED TO GROW

- 1 We guarantee our nursery stock and seeds to grow. If it does not, notify us not later than July 1st, 1933 and we will replace the stock free. After July 1st, we will replace at half price.
- 2 We guarantee our nursery stock and seeds to be first quality. Examine stock carefully upon arrival and if it is not entirely satisfactory, we want you to return it to us at once at our expense and we will refund your money or replace stock.
- 3 We guarantee our nursery stock and seeds to be true to name, otherwise we will replace free or refund the amount you paid.

7 REASONS WHY you can buy with con- fidence from Inter-State Nurseries

- 1—Our nursery stock and seeds are guaranteed to grow.
- 2—Our nursery stock and seeds are guaranteed to be true to name and to be first quality.
- 3—Our prices are low because we actually grow our own stock in very large numbers, growing fruit trees, small fruit plants, etc., by the hundreds of thousands. We grow on our own land, with our own experienced help, our own equipment, our own storage buildings, more nursery stock than any nursery selling primarily by radio. We, the grower, sell this stock directly to you, the planter.
- 4—The Inter-State Nurseries is owned and operated by men who are SPECIALISTS, men with lifetime experience. Also we handle ONLY NURSERY STOCK AND SEEDS, so we can give you more efficient and expert service.
- 5—Our stock is grown in the celebrated Loess Deposit Soil which is acknowledged to be the finest in the world, producing that wonderful root system which makes our stock famous. Hamburg, Iowa, is far enough north so that our stock is hardy and will thrive North, South, East and West. We have ample rainfall for spring and summer growth and a cool, frosty fall to ripen the stock properly. This means our stock secures its growth under proper conditions and in the most natural way without forcing so every plant is sturdy, vigorous, healthy and exceptionally hardy. This vigor and hardiness remains in the plants always and that is why they give you better and quicker results.
- 6—We send you hardy, field-grown stock which is certified to be healthy by official government inspectors.
- 7—Last season we shipped 306,812 orders. The fact that our business is growing faster than any other nursery in this territory proves that we are giving satisfaction. We doubled our sales last year and expect to do the same this year. It is our sincere desire to serve you, to help you MAKE YOUR HOME GROUNDS MORE FRUITFUL AND MORE BEAUTIFUL.

How to Order

PLEASE BE SURE AND WRITE YOUR NAME AND FULL ADDRESS PLAINLY ON BOTH YOUR ORDER AND THE ENVELOPE.

You can send us check, money order or cash. But if you send cash, please be sure and wrap it carefully in paper and BE SURE YOU SEAL THE ENVELOPE TIGHTLY. Please do not send stamps.

Where prices state POSTPAID, we pay all shipping charges, sending by parcel post unless the package is so large it must go by prepaid express. Where prices state NOT POSTPAID, this means the trees are too large to be shipped by parcel post and must be shipped by express or freight, not prepaid. These large size trees will naturally bear sooner than the smaller trees and are well worth the slight extra cost.

FRESH RHUBARB PIE and SAUCE SURE TASTES GOOD

INTER-STATE GIANT RED—We believe this is the best rhubarb in America. It is almost seedless. The stalks are giant in size, more than twice as large as ordinary rhubarb, a bright red color, very tender and stays tender so you can use it all spring and summer, and has the sweetest richest flavor of all rhubarb. As fast as you pull up one stalk, another comes up to take its place. Every home should have some rhubarb, so easy to grow, require no special soil or care. Eat what you want fresh and can the rest for winter. We send you extra large roots.

INTER-STATE GIANT RED RHUBARB

Have an Asparagus Bed of your own

GENUINE PEDIGREED GIANT WASHINGTON—There is a large amount of asparagus grown around Hamburg for the canning factory and this kind is the best. It produces larger stalks and more of them, it is extremely tender and does not get tough early like other varieties, it has the most delicious flavor and is rust-proof. THIS PICTURE IS ACTUAL SIZE.

In every yard there is room for some asparagus, just a few square feet are needed, or along a fence row, or in front of shed. Inter-State asparagus will give you fresh asparagus for almost three months and how good home grown asparagus tastes and as it is so rich in minerals and vitamins it is very healthful. Don't put it off. Plant this spring. We recommend the largest size plants as they will give much quicker results.

PERFECTION CURRANT

CURRANTS

• the Ideal Jelly Fruit

Currants are easy to grow, requiring little room and almost no care. They bear every year.

CHERRY—Extra large red berries, thin skin, fine flavor.

RED CROSS—We like this variety best for home use because the bright red berries have such a delicious flavor and the bush is full of the long clusters of berries.

Just a few

Gooseberry Bushes

will bear enough for pies, jam, sauce

Gooseberries and Currants will grow in partial shade as well as full sun. Sometimes they bear first year and always bear next year from planting.

CHAMPION—We consider this the best gooseberry. The berries are medium size, turning red when fully ripe and very good flavor. It is a heavy regular bearer and easy to pick as the fruit hangs in long rows on the under side of the branches and the bush is not very thorny. It is rapidly replacing Houghton and other varieties.

DOWNING—The berries are very large, light green color and good quality. It is the leading large gooseberry.

LATHAM—Originated a few years ago in Minnesota, today it has become the leading and most widely planted red raspberry in America, does well north, south, east and west. It is a very strong grower, the canes are heavy and they bear enormous crops of very large berries, which are of superb quality and real raspberry flavor. It will out-yield any other raspberry. The berries do not mush up like other red raspberries but are firm and solid like the black raspberries. Delicious eaten fresh and makes wonderful preserves, jam and sauce. Our plants are the genuine Latham as our mother block came directly from the originator. Generally bears some berries same year planted. They are mosaic free. **New low prices—Heavy Select Plants, 12 for 75c, 25 for \$1.25, 100 for \$3.95 Postpaid.**

every home should grow its own Raspberries

Nearly every home has room for a few raspberry plants. They taste so much better when you can pick them right fresh from your own garden and they are the easiest of all fruits to can. Why should you buy raspberry fruit, when it is so easy to grow your own? The amount you pay for a few quarts of berries will buy you enough plants to produce for many years all the berries you need.

BLACK Raspberries

CUMBERLAND—Our Super-Selected Strain of the Cumberland is the best of the black raspberries. It is a hardy, vigorous grower and produces enormous crops of large, firm berries of the finest flavor. The berries are not seedy but are juicy. Black raspberries sure make fine sauce.

KANSAS—An old favorite, berries are jet black, good size and highest quality. Stands lots of cold and drought.

BLACKBERRIES SURE TASTE GOOD

Blackberries are easily grown and bear abundantly. Our selected plants are GROWN FROM ROOT CUTTINGS and not from suckers. They will do much better. If you have some rough steep hillside ground, plant it to blackberries and they will make you money.

MERSEREAU—We consider this the best blackberry. The large sparkling jet black fruit is delicious in flavor and does not have a hard core. It is hardy and very heavy bearer and will produce fruit in dry seasons when other varieties fail as it is a strong, deep rooted grower.

SNYDER—The fruit is medium in size, sweet, juicy and fine flavor. Very hardy. Widely planted.

Sweet, Juicy DEWBERRIES Make Luscious Pies

LUCRETIA—This is the big, hardy dewberry, grows low, trailing on the ground. The fruit is much larger than Blackberries, jet black color, sweeter and juicier than blackberries. In the winter, you should mulch the plants with straw. Our plants are GROWN FROM ROOT CUTTINGS, which are much superior to tip plants.

MOORE'S EARLY—Very much like Concord except it ripens two weeks earlier.

NIAGARA—A large, handsome white grape with sweet delightful flavor. It is the most popular white grape. Hardy and a good bearer.

WORDEN—This is a very fine grape for home use, ripening a few days before Concord. The blue-black berries are slightly larger than Concord, the skin is thin, and it is of the highest quality. Hardy and a heavy bearer.

Experience has proven that it is so much better to plant the strongest 2 year vines instead of 1 year vines, that this year we do not offer any 1 year vines. When you plant, you want grapes as soon as possible. THEREFOR WE ESPECIALLY RECOMMEND OUR EXTRA SELECT 2 YEAR VINES. THEY WILL BEAR NEXT YEAR. When you get these vines and see what fine tops and what great root systems they have, you will agree with us that THEY ARE THE FINEST GRAPE VINES IN AMERICA.

Every home, city, town or country, should have some grape-vines. They are the most dependable of all fruits, bearing every year and they last a life time. They can be used in so many different ways; eat them fresh, make jellies, jams, marmalades, sauce, grape juice, etc. They are very wholesome and healthful and appetizing. They grow in practically any soil and climate. They bear young. They don't require a great deal of room, you can plant them along the fence line, on arbors or trellises.

The 3 to 4 ft. size trees are fine ones and will bear young but of course the larger size trees will naturally bear a heavier crop.

We can honestly tell you that we have the finest lot of cherry trees in America, nicely branched and the most wonderful roots. They are budded on the hardy Mahaleb stock so will not sprout.

VARIETIES

ENGLISH MORELLO—Bears younger and heavier than any other cherry. Fruit is almost black, good size and sprightly acid. Succeeds in dry sections where other sorts fail. Fine for canning and preserves and pickling. Ripens in July after others are gone.

LARGE MONTMORENCY—The most widely planted and most popular cherry. Does well everywhere and is especially popular in western Kansas and Nebraska. Bears large crops regularly, ripening ten days after Early Richmond. The fruit is large, flesh firm and delicious flavor. Best cherry for canning.

INTER-STATE CHERRIES—HARDY—SURE TO BEAR

EARLY RICHMOND (May Cherry) — The favorite early cherry. Fruit is bright red, juicy and of finest flavor. Strong grower, thrifty, heavy producer. Ripens in early June. The great pie cherry. Sure to bear.

SWEET CHERRIES

Sweet cherries are not so well adapted to the central west conditions but here are the four best varieties.

BELLE MAGNIFIQUE—We consider this the best hardy red sweet cherry. Fruit is large, beautiful crimson, firm flesh of most wonderful flavor.

BLACK TARTARIAN—Very large purplish black cherry of fine flavor. Widely planted.

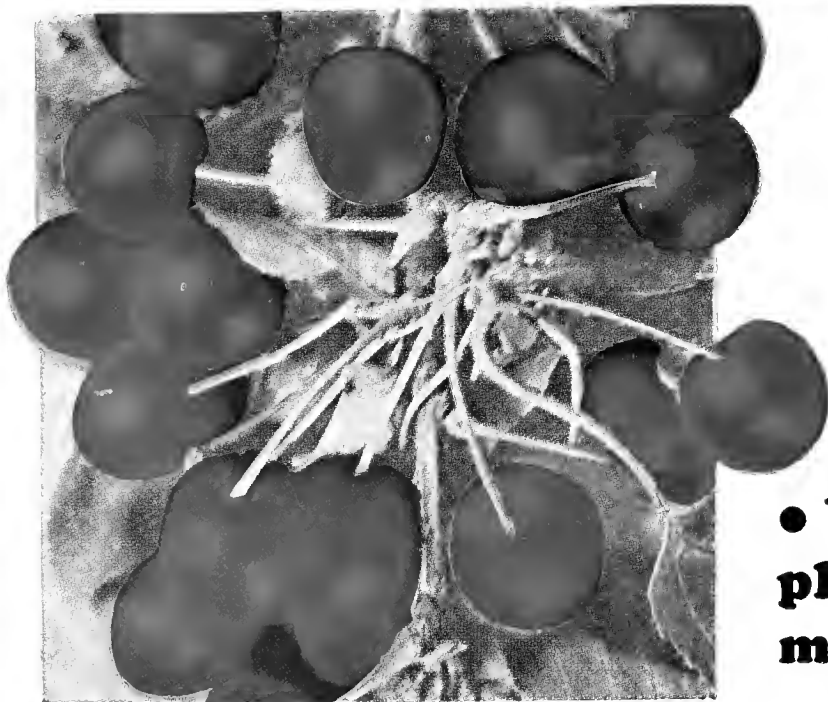

GOLD—Originated in Nebraska, hardy, very high quality.

YELLOW GLASS—Considered the best hardy sweet cherry for the central west, fruit is large, golden yellow, flesh is firm and very sweet flavor. It bears regular crops here at Hamburg.

PEARS

**are easy to grow and
do best planted in sod**

The pear is one of the highest quality fruits. They should be picked before entirely ripe and put in a cool, dark place to ripen. Pears do fine in sod and the poorer soils. They grow upright and do not need much room. It is best to plant several varieties so they can cross-pollinize.

SECKEL

Sweet and bears abundantly

VARIETIES

BARTLETT — The leading summer pear, large, clear yellow with blush on sunny side, juicy, sweet and highest quality. Shown in color on back cover.

DOUGLAS — A fall pear that originated in Kansas, bears very young, generally next year after planting. We have never known of a tree of this variety being killed by blight. The fruit is large, golden yellow blushed scarlet, flesh is white, tender, juicy and good flavor.

DUCHESS — Ripens in fall, very large, greenish yellow spotted with russet, rich, juicy, fine quality, especially good for home orchard.

KIEFFER — The best known and most widely planted winter pear, large size, and if the fruit is picked before it is fully ripe and put in cool, dark place, it matures into a good flavored pear, extra good for canning, bears young and heavily.

DOUGLAS

Bears very young

LINCOLN — A large, yellow, late summer pear, bears young and heavily, delicious for eating and canning.

PATTEN — We consider this our best pear. It is very hardy, growing as far north as Minnesota and the Dakotas. We have never heard of them being killed by blight. Fruit is greenish yellow, large, keeps well, wonderful flavor, juicy and very rich quality. Young and heavy bearer.

SECKEL — Called the Sugar Pear because of its sweet flavor, medium size, very highest quality of all pears, hardy, blight resistant and bears young and heavily. Fine for pickling whole. Ripens in late summer.

HARDY APRICOTS

Who doesn't like apricot sauce and preserve? Ripen right after cherries and just before the early peaches. Very easy to grow.

SUPERB — Considered the best apricot for middle west. Originated in Kansas, hardy, very productive, delicious quality, bears when other varieties fail.

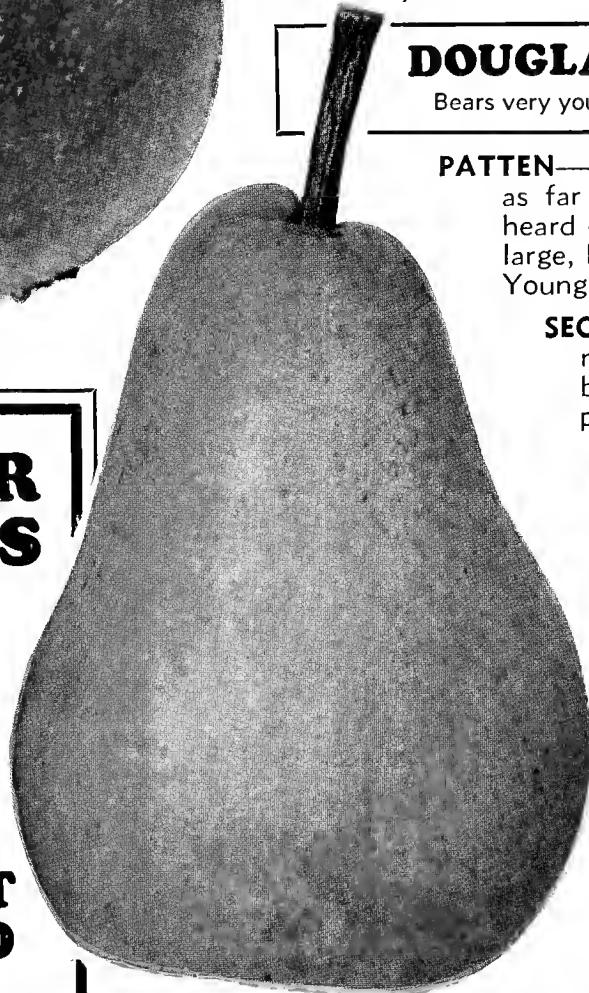

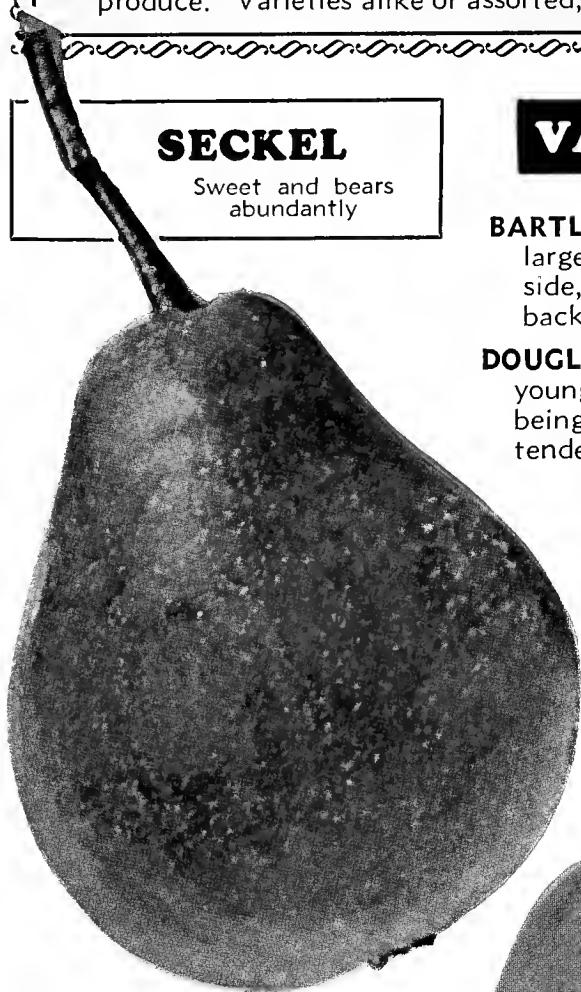

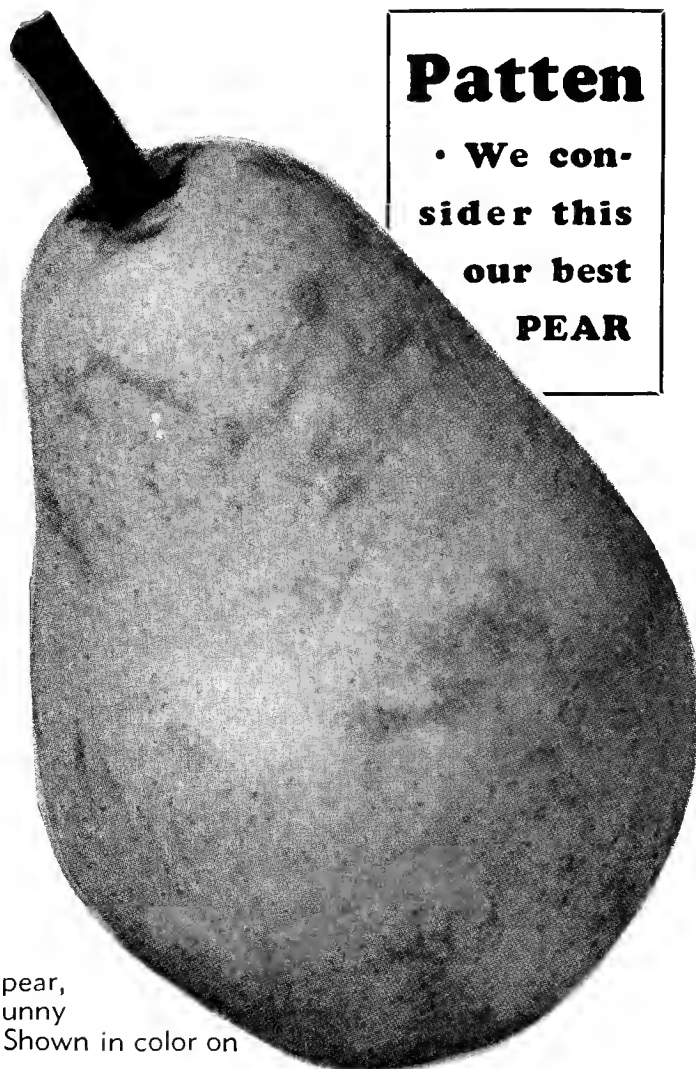

Can also furnish Chinese and Moorpark.

INTER-STATE PEACHES

**Budded, Bear Young, .
Hardy**

Who doesn't like fresh, home grown peaches? They need but little room, are easy to grow, and bear young. If you are planting out some apple trees, plant some peaches in between the apples. They grow quick, bear young. The flavor and sugar in peaches are put there by nature the last thing so to be at their best they must be picked fully ripened from the tree. That is why home grown peaches are superior.

**. at their best picked
fresh from your own trees**

You will never know how good peaches can taste until you pick them fully ripened from your own trees. The price of just one bushel of peaches you buy, will pay for enough trees to bear many, many bushels of deliciously flavored home grown peaches.

J. H. HALE

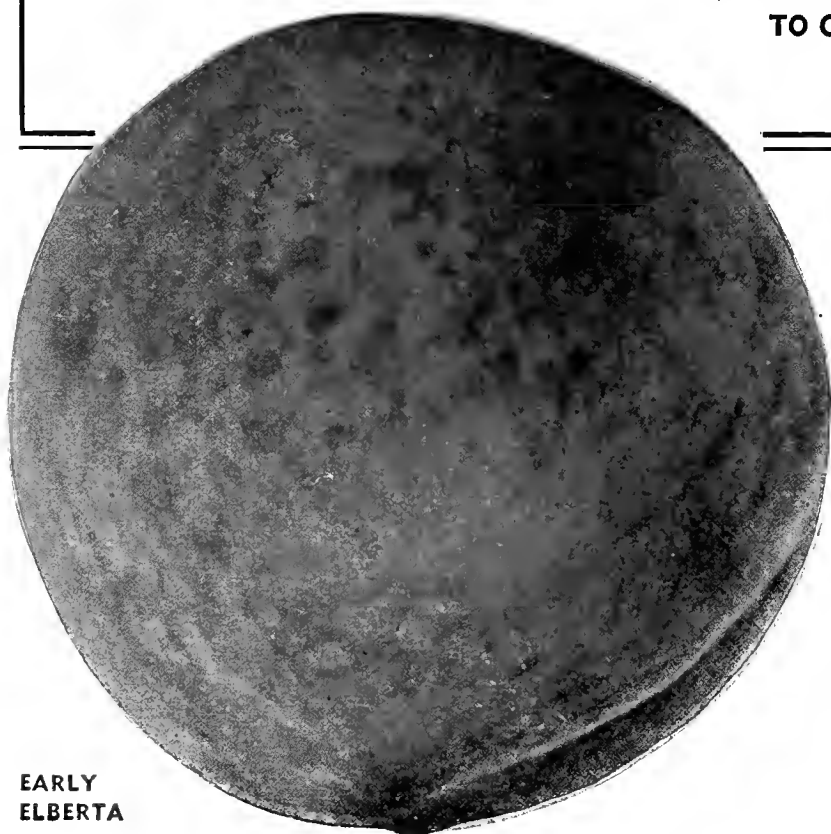

PEACH TREE PRICES

We can honestly tell you that these are fine trees, the finest you can get. To give you an idea as to how many peach trees we grow in our Hamburg nursery, last fall we planted about 400,000 peach pits to be budded this coming summer. Our hardy northern grown peach trees will come into bearing young and stand severe weather.

We sell more of the 4 to 5 foot grade and they are fine trees, branched and wonderful roots. The large 5 to 7 foot grade are especially selected for their well-branched tops and extra fine roots and we recommend them for those who want the finest trees to be had, and they will bear quickly.

VARIETIES

We have listed the peaches in their order of ripening. Mayflower ripens here in early July, about two months ahead of Elberta, down to Heath Cling which ripens about a month after Elberta.

MAYFLOWER—The first to ripen, although blooms so late it is called “Frost-Proof,” handsome red all over, semi-cling, good quality, good size.

CHAMPION — Large, creamy white with red cheek, free-stone, delicious, sweet, juicy, considered the finest white-meated peach for central west, bears young, exceptionally hardy, our most popular variety. Shown in color on back page.

CRAWFORD EARLY—Large, bright yellow with red blush, free-stone, flesh is yellow, juicy, sweet, fine flavor, an old favorite.

SOUTH HAVEN—Large yellow with blush, its yellow flesh has an exquisite flavor, heavy bearer, hardy, bears young, we like it fine.

EARLY ELBERTA—Large, golden yellow with red cheek, free-stone, flesh is yellow, firm, juicy, luscious flavor, harder than Elberta, considered the best early yellow peach.

BELLE OF GEORGIA—Large, white with blush, free-stone, flesh white, firm and delicious, good bearer.

CHINESE CLING—Large yellow clingstone, hardy, heavy bearer, we think it the best hardy yellow cling.

CHAMPION—fine quality, juicy, white meat, ripens in August

J. H. HALE—Very large golden peach blushed carmine with fuzzless skin, flesh is yellow, solid, tender, of highest quality and most delicious flavor. Considered the finest of all.

ELBERTA—Large yellow with blush, free-stone, flesh is yellow, firm, good quality, the most widely planted and most popular of all peaches. Shown in color on back page.

CRAWFORD LATE—Large, deep yellow with red cheek, free-stone, flesh is yellow, firm, excellent quality, hardy and good bearer.

CROSBY—Medium large, orange yellow with blush, free-stone, flesh is yellow, firm, juicy, high quality, very hardy, bears when others fail.

MAMMOTH HEATH CLING—Large, white clingstone, the best and most popular white cling.

Varieties

Always plant several varieties of plums and plant them in clusters so they can cross-pollenize. They will then bear much better.

SAPA

GOLDEN ROD
(One-half Size)

OPATA

BLUE DAMSON—The old-fashioned small blue plum which makes such wonderful preserves and bears every year. Freestone.

BURBANK—Very large dark red, freestone, sweet yellow flesh of finest quality.

***COMPASS**—This variety will probably bear more fruit in a shorter time than any other fruit tree. Commences next year after planting and bears heavily every year. Fruit is bright red, juicy and makes fine sauce. Grows everywhere.

GERMAN PRUNE—A fine prune, freestone, large purple fruit, sweet and delicious, ripens in September.

***GOLDEN ROD**—The best hardy yellow plum, large fruit, sweet and tender and highest quality, freestone. Very hardy.

GREEN GAGE—The sweetest eating and canning plum, good size, greenish-yellow, juicy, sweet and most delicious, freestone.

***HANSKA**—Large, dark reddish purple freestone plum, very fragrant, flesh is yellow and exquisite apricot-plum flavor. Very hardy.

***IMPROVED WILD GOOSE**—Another old-fashioned plum which makes such fine jelly, fruit is large, bright red, very juicy, sweet.

***KAGA**—The most richly flavored of all plums, a plum-apricot flavor, flesh is yellow, firm, fragrant, freestone, you seldom can any of these because they are so good you eat them fresh. Very hardy, does well North, South, East, West.

LOMBARD—Large, violet red freestone plum with yellow juicy flesh of fine flavor. Heavy bearer, does well on thin soils. Most widely planted plum in America.

***OMAHA**—Large red freestone plum of highest quality, ripens in August, originated in Nebraska, very hardy.

***OPATA**—Medium size, freestone, purplish red plum, flesh green of pleasing spicy flavor, ripens in July, our first plum to ripen. Planted from Canada to Mexico and generally bears next year from planting. Very heavy and young bearer and very hardy.

You who live in the hot dry sections of Kansas, Oklahoma, Texas, etc., should plant Waneta, Underwood, Sapa, Opata, Compass, Kaga, Golden Rod. Those living in Nebraska, central and northern Iowa, Dakotas, Minnesota, Wisconsin, northern Illinois and northern Indiana should plant varieties marked with a (*) as they are perfectly hardy. Those living in Missouri, eastern Kansas, southern Iowa, central and southern Illinois, Indiana and southeastern Nebraska can plant any of the varieties listed.

WHY BUY APPLES? GROW YOUR OWN

Summer Apples

ANOKA—It bears second year—no waiting. Originated in South Dakota, extremely hardy, bears young and heavily. Fruit is large, yellow streaked red, juicy, rich, excellent flavor, ripens in August but can be used many weeks before ripe. Extra fine for sauce, pies, cobblers and good eating when ripe.

DUCHESS—The great mid-summer apple, does well everywhere, bears young and heavily. Fruit is large, attractive red-striped, flesh is firm, juicy, good flavor. Millions of green-apple pies and bowls of delicious sauce have been made from this great apple. Can be used a month before ripe.

EARLY HARVEST—Medium sized yellow apple of good quality, ripens in July.

RED DUCHESS—Exactly like Duchess except fruit is solid red, which will make it a better market apple. Price 3 to 4 ft. trees 35c each; 5 to 7 ft. selected specimen trees, 50c each.

RED JUNE—The old-fashioned bright red apple, first to get ripe, they sure taste good.

YELLOW TRANSPARENT—The most popular extra early apple, bears young and bears every year, fruit is medium size, golden yellow, tender, juicy, very fine flavor, good for both eating and cooking, ripens in July. Should be in every home orchard.

FALL APPLES

FAMEUSE (SNOW)—A red-striped apple, medium size, flesh is snow white, tender and very highest quality. Ripens in October.

MAIDEN BLUSH—An old favorite, yellow with blush, large, mild flavor, good for eating and cooking, fine for pies, jelly and sauce. Ripens in September ahead of Wealthy.

WEALTHY—The great fall apple, large, bright red-striped, flesh is firm, fine-grained, juicy and very good quality. Bears young and heavily and grows everywhere. Fruit ripens in September but can be used for many weeks before fully ripe, good for eating and cooking, makes fine jelly, apple butter and cider. Should be in every home orchard.

EARLY WINTER VARIETIES

LATE WINTER VARIETIES

See Page 18 for Prices on these Apples.

BANANA—The most beautiful of all apples, large, golden yellow shaded crimson, rich flavor, bears young and heavily.

GRIMES GOLDEN—The most popular yellow apple, a beautiful golden yellow color, good size and sparkling, spicy flavor of highest quality, flesh is firm but tender, rich, juicy and fragrant. Bears young and heavily, one of the best for home use. Shown in color on back page.

JONATHAN—Everybody likes this apple, the most popular red apple in the central states, good size, bright red, highest quality; flesh is white, firm, very crisp and tender and full of snap. Tree is long lived, bears young and heavily. No family orchard is complete without some Jonathan.

RED DELICIOUS—Probably the most popular apple grown today, the fruit is large, red and yellow blend, flavor is mild, crisp, juicy and superb quality. The fruit generally sells at a higher price than other varieties.

STAYMAN WINESAP—Very large apple, greenish-yellow splashed with red; flesh is tender, juicy and highest quality. In January and February there is no better apple. Good for eating and cooking.

TOLMAN SWEET—A very popular sweet apple of medium size, yellow with blush, has a rich sweet flavor, very fine for pickling. Keeps a long time.

BEN DAVIS—An old variety that has been planted everywhere because it bears every year such heavy crops of large red striped apples which will keep all winter. Extra fine for baking and making mince meat.

GANO—Very much like Ben Davis except apples are almost solid red. A good sort to have in your orchard because it will bear in years when others fail.

GOLDEN WINESAP—This is a very large golden yellow apple with beautiful red cheek, which will keep all winter. It is a very heavy bearer and is a fine cooking apple, for pie, sauce, baking, jelly, etc.

INGRAM (IMPROVED JANET)—Much like Janet except apples are larger but will not keep so long.

JANET (RALLS GENETON)—A rather small greenish-yellow apple, an old favorite, our grandparents used to bury them in the ground and they kept until summer, very fine quality and heavy bearer. Keeps all winter.

MAMMOTH BLACK TWIG—A very large greenish red apple of good quality. Keeps extra well in common cellar or cave.

SHARON—This is a new apple originated by the Iowa Experimental Station and is especially fine for cold sections like Northern Iowa, Minnesota, and Dakotas. Very hardy, large size fruit of excellent quality, heavy bearer.

WINESAP—A well-known, medium size dark red apple, juicy, fine flavor, good for cooking and eating, the favorite late winter apple because it will keep all winter and keep its flavor. Heavy and regular bearer. Shown in color on back page.

YORK IMPERIAL—A large, juicy red apple of good quality which is one of our best late winter apples because it keeps until June. A heavy bearer.

Topeka, Kansas.
I must write and tell you how pleased I was with the apple trees and roses I got from you. They were sure fine and received them in fine condition. When we order again it will be from the Inter-State Nurseries. Raymond Bever.

CRAB APPLES

DOLGO—We believe this is without doubt the best of all crabs. It bears very heavily, the fruit is bright red and comes in clusters. It makes the finest flavored jelly of any crab or apple, a clear bright transparent red and even after the fruit is dead ripe (it hangs on the tree for weeks) it still makes jelly. Moreover this crab is one of the most beautiful of all trees, in the spring it is just full of large white flowers, with touch of pink, and then the fruit hangs in clusters all over the tree and as they turn brilliant red, it is a wonderful sight. You can plant this tree right in your front yard or parking as no tree is more beautiful.

FLORENCE—Red, bears young and heavily, fine for jelly and pickling.

HYSLOP—Large, dark red, good quality, good for eating and cooking.

RED SIBERIAN—The popular small red crab for pickling.

WHITNEY—Our most popular crab because it can be eaten like an apple as it has a fine flavor or it can be cooked, making wonderful butter, jelly and pickles. Fruit is largest of all crabs, large as a small apple, glossy yellow splashed red, bears very young and very heavily.

We can also furnish the following varieties

We do not have room in this book to describe all of our varieties of apples. We can furnish the following:

Black Ben, Haralson, King David, Livland, Malinda, McIntosh Red, N. W. Greening, Ramsdell Sweet, Red Astrachan, Roman Stem, Rome Beauty, Salome, Turley and Willow Twig.

HARDY FLOWERING SHRUBS for all season's bloom

Just a few shrubs and vines make this home so attractive. There are 2 Hydrangea P. G. at each end (the 4 cost **70c**), nine Japanese Barberry between the Hydrangea and 3 Barberry at end of porch (the 12 barberry cost **\$1.00**) and the vines on the porch are Engelman's Ivy (3 vines cost **70c**). The total cost only **\$2.40**. What a difference in the appearance of the house, those shrubs and vines make!

REFER TO OUR SHRUB TABLE ON PAGE 38

IT TELLS YOU HOW TALL THE SHRUBS ARE WHEN FULLY GROWN, THE COLOR OF THE FLOWER, THE TIME OF BLOOMING and other information. It helps you pick out the right shrub for the right place.

ALMOND, PINK FLOWERING—The bright pink flowers, which look like small roses, completely cover the bush in early spring.

Strong, 1 to 2 feet..... **35c each, 4 for \$1.20**
Heavy, 2 to 3 feet..... **40c each, 4 for 1.40**

ALMOND, WHITE FLOWERING—Like the above except flowers are white. Same prices.

BARBERRY, JAPANESE (THUNBERG'S)—This variety does not carry rust and can be planted successfully everywhere. One of the best low growing shrubs, growing in sun or partial shade, making a dense, round-headed, bushy shrub with lively green foliage which in the fall turns a beautiful scarlet and bronze, followed by bright red berries which hang on all winter.

BEAUTY BUSH—In May, this shrub is completely covered with beautiful pink flowers. The foliage is very attractive and the center branches grow upright with the outer branches drooping gracefully, giving a fountain effect. Perfectly hardy.

Strong, 1 to 2 feet..... **40c each, 4 for \$1.40**
Heavy, 2 to 3 feet..... **50c each, 4 for 1.75**

BUTTERFLY BUSH, FARQUHAR—This is a new Butterfly Bush which is more hardy and does not grow quite so tall as the common variety. It blooms more freely, being a mass of lilac-purple flowers July to September. Fragrant and attractive. **30c each, 2 for 55c.**

HYDRANGEA, P. G. TREE FORM—This is the common Hydrangea P. G. except it is trained to a single stem with branches like a tree. **Strong, 3 to 4 feet, \$1.15 each.**

PRUNUS, PURPLE LEAF (Newport)—Distinct because its leaves and bark are a reddish-purple. Will naturally grow 10 feet tall but can be kept pruned down to a shrub 4 to 5 feet high. **Strong, 18 to 24 inches, 40c each, 2 for 75c; heavy, 2 to 3 feet, 50c each, 2 for 90c.**

PRUNUS, TRILOBA (Rose Tree of China)—Double pink flowers completely cover the plant in April before the leaves come. **Strong, 18 to 24 inch, 35c each, 2 for 65c; heavy, 2 to 3 feet, 50c each, 2 for 90c.**

SPIREA VANHOUTTE (BRIDAL WREATH)—This is by far the most popular and widely planted of all shrubs. Shown in color on page 26. Grows everywhere. Use it for foundation planting, for single specimens, for screens, for hedges, anywhere you want a medium tall shrub. Truly a wonderful sight in April and May with its graceful drooping branches covered with pure white flowers.

SYRINGA, GOLDEN—The best dwarf yellow foliage shrub. White blooms in May and June. **Strong 12 to 18 inch, 50c each.**

SYRINGA, VIRGINAL (Mock Orange)—Far better than the other varieties of Mock Orange. The flowers are unusually large, semi-double, pure white, fragrant, come in clusters in June and throughout the summer. A few blooms in a vase will perfume the entire house. This is one of the finest shrubs in all the world. Will bloom this summer.

Strong, 1 to 2 feet..... **25c each, 4 for 90c**
Heavy, 2 to 3 feet..... **30c each, 4 for \$1.00**

north of Missouri.
Blooms freely in August
and September. Your
choice of violet, red,
pink, and white colors.

SNOWBALL

BUTTERFLY BUSH, COMMON—Tops die down each winter but come
up every spring. Showy fragrant long spikes of lilac flowers in August
and September.

CRANBERRY, HIGH BUSH—Flat clusters of white flowers in April and
May followed by scarlet berries which hang on until spring. Thrives
in shade or sun, in wet or dry places.

DEUTZIA, LEMOINE—Dwarf compact shrub with showy double white
flowers in May.

DEUTZIA, PRIDE OF ROCHESTER—Large bell shaped flowers white
tinged with rose, borne thickly in wreaths along the branches in May
and June.

DOGWOOD, RED BARKED—Dark green foliage with creamy white
flowers followed by clusters of blue berries. Does well in sun or shade,
wet or dry locations. In winter its bright red bark adds cheer and
color.

DOGWOOD, YELLOW BARKED—Similar to Red Barked except in win-
ter bark is bright yellow.

ELDER, CUTLEAF—Fern-like foliage with fragrant white blooms in
June and July followed by purple-black edible berries.

ELDER, GOLDEN—Its startling yellow foliage makes a rich
contrast with the green of other shrubs. Its great masses of
white flowers in July are followed by purple-black berries.
Can be trimmed to any height but naturally makes a large
spreading bush.

FORSYTHIA, SPECTABILIS (Golden Bell)—There are sev-
eral varieties of Golden Bell but this is the best. The first
shrub to bloom in the spring, lighting up whole yard with
its glittering masses of rich golden yellow flowers which
cover entire length of branches and appear before the
leaves.

HONEYSUCKLE, MORROWI—A very attractive shrub with
spreading branches and white blooms in May and June fol-
lowed by masses of crimson berries.

HONEYSUCKLE, TARTARIAN—Very popular shrub, in May
and June covered with delicate pink flowers followed in
late summer by great clusters of red and orange berries.
One of the best shrubs for background and screening.

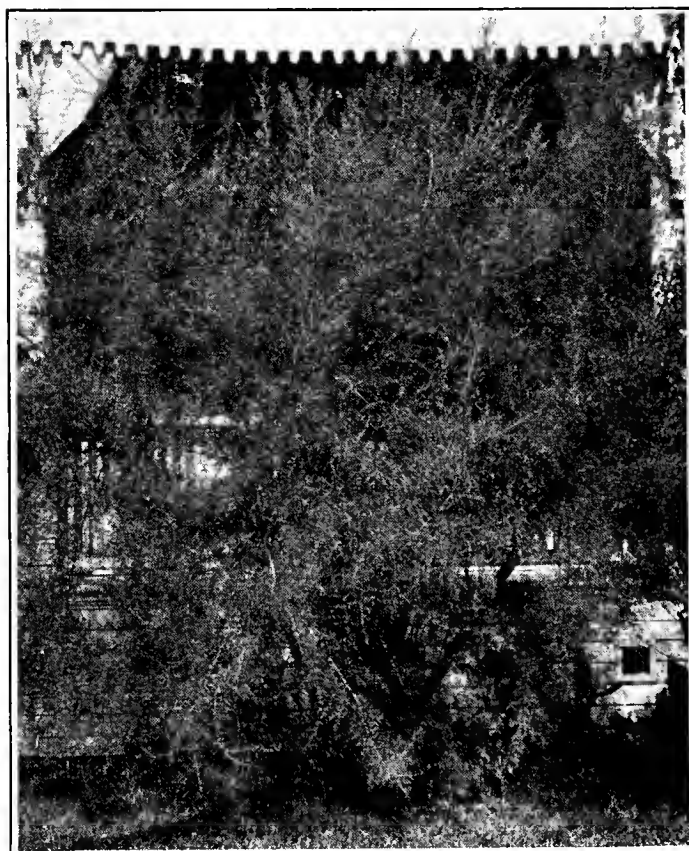

HYDRANGEA, ARB. GRAND. (Hills-of-Snow) — Large,
round clusters of creamy white flowers from June to Aug-
ust. Large heart shaped, light green leaves. Should be cut
back to ground early each spring before growth starts. Does
well in shade.

HYDRANGEA, P. G.—The most popular late sum-
mer blooming shrub. The large white cone shaped
blooms turn a delicate pink and bronze as fall
comes.

LILAC, CHINESE (Rothomagensis)—Fine tall
shrubs with handsome foliage and striking red-
dish purple flowers in May and June. It is very
free flowering. Exceptionally fine for back-
ground.

Many nurseries make two grades out of the 1 to 2
ft. size shrubs. They make one grade of 12 to 18
inches and another grade of 18 to 24 inches. But
we put them all into one grade which means that
**YOU GET THE STRONGER, LARGER SHRUBS AT
THE LOWER PRICE.** Our 1 to 2 ft. plants have fine
tops and roots, grown 2 years right out in the open
fields so they are hardy and vigorous.

The 2 to 3 ft. size are a year older and of course are
larger and heavier plants. You gain a year's time by
planting them.

TAMARIX HISPIDA

• **Use Tall Growing Shrubs for Screens and
Hedges; Use Low Growing Shrubs for Porch
Planting and in Front of Taller Shrubs.**

SPIREA SORBIFOLIA

SPIREA, BUMALDA—Similar to Anthony Waterer except flowers are pink.

SPIREA CALLOSA ALBA—Similar to Anthony Waterer except flowers are white.

SPIREA, FROEBELI—Grows a few inches taller than Anthony Waterer. Bright pink flowers in May and June. The leaves are striking reddish purple in spring and fall. One of our finest shrubs.

SPIREA, SORBIFOLIA—Foliage is like fern leaves, very handsome. Fine feathery panicles of white flowers in June and July. If you like unusual shrubs, plant some of these.

SPIREA, THUNBERG'S—A graceful semi-dwarf shrub with feathery bright green foliage which colors orange-scarlet in fall. Snowy white flowers in April.

SYRINGA, CORONARIUS (Mock Orange)—Large, delightfully fragrant flowers in May and June.

SYRINGA, LEMOINE—A fine medium low shrub with single white fragrant flowers in May and June.

TAMARIX, HISPIDA—By far the best tamarix because its silvery blue foliage is more dense, and beautiful bright pink flowers in racemes from July to September. If not pruned will grow 10 to 15 feet tall but makes more attractive shrub if pruned severely each season and can then be grown with smaller shrubs. Grows in moist places.

VIBURNUM, DENTATUM (Arrowwood)—

Single white flowers in April and May followed by blue-black berries that hang on for months. The heart shaped leaves are bright green and color up red and purple in fall. Grows in partial shade. One of our best shrubs for massing and foliage effect.

WEIGELA, ROSEA—One of our finest shrubs with beautiful pink trumpet shaped flowers. May to July.

WEIGELA, VARIEGATED—

Dwarf, compact growing leaves are green with broad margin of white. Most popular variegated shrub.

SHRUB PRICES ON PAGE 23

LILAC, PURPLE — The old-fashioned kind that perfumes a whole neighborhood. Purple flowers in April and May.

PRIVET, REGEL'S — Low spreading bush with dark green shiny leaves which color in fall. Good for foundation planting. White flowers followed by blue berries.

QUINCE, JAPAN SCARLET—A favorite because of its great show of dazzling scarlet flowers early in April before leaves come out, shiny dark green foliage. Has small quince-shaped fragrant fruits, which if put in your dresser drawer will give the clothes an alluring fragrance.

SNOWBALL—An old-fashioned shrub loved by all because it grows everywhere and has such an abundance of showy compact balls of pure white blooms in May. Does well in partial shade.

SNOWBERRY, CHENAULTI—A new shrub which will become very popular because of its fine, delicate branches which droop gracefully, sparkling green foliage and beautiful white flowers followed by masses of bright red berries which hang on a long time. We are introducing this shrub to you at a very low price so you can all enjoy it in your own garden.

SNOWBERRY, WHITE—A beautiful shrub with rose pink flowers in June and July followed in the autumn by large waxy white berries like clusters of pearls which hang on for many weeks. If you have had trouble getting shrubs to grow in some real shady places, you should plant this shrub.

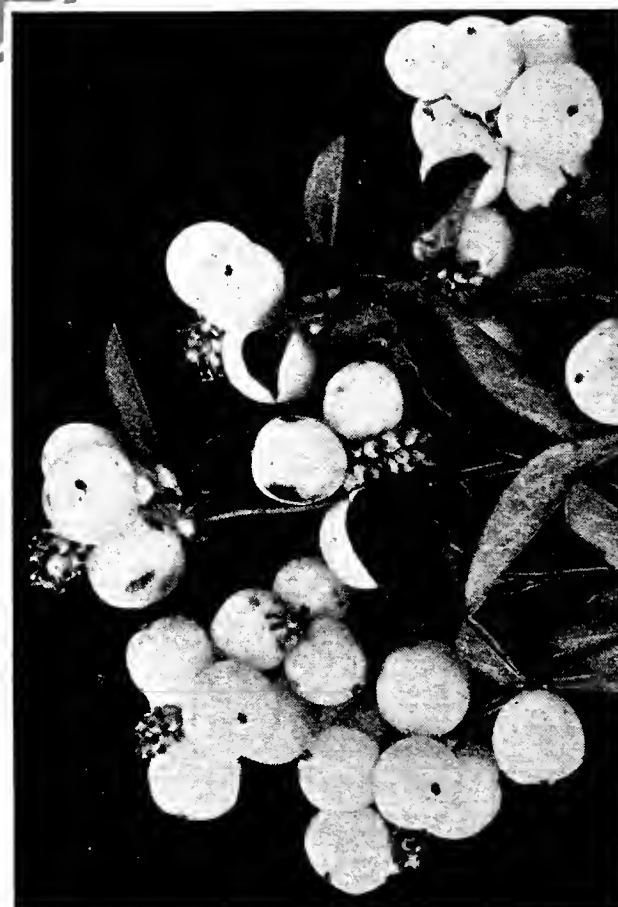

SPIREA, ANTHONY WATERER—The everblooming red dwarf spirea which is used so widely for borders. Will bloom better if you cut off old flowers as they fade.

SPIREA, ARGUTA (Snow Garland)—A medium low-growing shrub, just full of white blooms two weeks before Bridal Wreath. Narrow, feathery, dark green foliage. You will like this shrub.

SPIREA, BILLARDI—A grand shrub for group and foundation planting, having long plumes of rose pink flowers from July to September. Succeeds everywhere.

HEDGES

beautify and protect your grounds

SPIREA (BRIDAL WREATH) MAKES THE MOST BEAUTIFUL FLOWERING HEDGE
100 well branched plants for \$4.25, 50 for \$2.50 Postpaid

A friendly, living green hedge will give privacy to your home, yet will not interfere with the view. A driveway or walk is very charming when framed with a living hedge. These ornamental hedges are admired by everyone, the plants are inexpensive, and are easily and quickly planted.

WITH EACH ORDER, WE SEND YOU INSTRUCTIONS TELLING YOU HOW TO PLANT YOUR HEDGE SO THAT IT WILL BE DENSE AND BUSHY FROM THE GROUND UP.

BARBERRY, JAPANESE (Thunberg's)—This barberry is free from rust and can be planted anywhere. Foliage is bright green in color, turning to beautiful orange-scarlet in the fall and far into winter the bright red berries gleam along every branch. Very popular, low, dense, rounded hedge, beautiful, trimmed or growing naturally. Will grow in partial shade.

BARBERRY, RED LEAVED—The front cover gives you an idea how beautiful this hedge is. The leaves are a rich lustrous bronze red becoming more brilliant thru the summer and in the fall are a gorgeous orange-scarlet, followed by red berries which hang on all winter. Plant in full sunlight to develop its brightest color. It can be trimmed or not, just as you wish, and is beautiful either way. If not trimmed, it makes a low bushy hedge two to three feet tall.

HONEYSUCKLE TARTARIAN—This makes the best tall hedge or screen, growing 8 to 10 feet high. Flowers in May followed by great clusters of orange and red berries. It can be trimmed and makes a fine medium height hedge. Grows in partial shade.

PRIVET, AMOOR RIVER NORTH—Extremely hardy, lustrous dark green foliage, which hangs on late in the fall. Can be trimmed to any shape and height. A very widely planted and popular hedge.

MULBERRY, RUSSIAN—Makes a quick growing, economical hedge. Inclined to get woody as it gets older.

ALL INTER-STATE NURSERY STOCK AND SEEDS ARE GUARANTEED TO GROW

EXTRA LOW PRICES

Our hedge plants are nursery grown in wide rows and are not to be confused with spindly, light stock grown closely in beds. Our plants are stocky, well-branched and fine roots, the best hedging you ever saw. They will give quick results. If you want to make a showing right away, we suggest that you plant the heavy 18 to 24 inch size, one foot apart.

A BARBERRY HEDGE and ENGLEMAN'S IVY MAKE A PARADISE OF THIS HOME

SPIREA VANHOUTTE (Bridal Wreath)—We consider this the very best plant for hedge purposes, whether you wish a medium tall natural untrimmed hedge, or a lower trimmed hedge. If not trimmed its drooping graceful branches are covered with a blanket of pure white flowers in May. When trimmed we think the Spirea Vanhoutte is better than the Privets, as the Spirea makes denser, finer and bushier hedge, hugs the ground closer, and is absolutely hardy and will never winter-kill. Grows in partial shade or sun.

Vines

Provide Comforting
Shade and Colorful
Beauty All Summer

ADD BEAUTY, CHARM, COMFORT

You know how cozy and charming a home looks with vines on porch and walls. They provide shade and flowers at porches and pergolas; they soften the sharp angles at corners of buildings; they can transform an ugly fence into a scene of beauty; they will prevent washing on banks. EVERY ONE OF THE FOLLOWING VINES IS HARDY AND A STRONG 2 YEAR PLANT. ALL PRICES POSTPAID.

VARIETIES

BITTERSWEET—Glossy green foliage, clusters of orange-red berries hang on all winter. 35c each, 2 for 60c.

CLEMATIS, PANICULATA (Japanese, Sweet Autumn) — In late summer and fall, it is covered with masses of white fragrant flowers. 25c each, 2 for 45c.

CLEMATIS, HENRYI—Large pure white flowers, free blooming. 90c ea.

CLEMATIS, JACK-MANNI — Immense flowers of purple, bloom nearly all summer. 90c ea.

CLEMATIS, MME. ANDRE — Large red flowers, freely produced. 90c each.

One each of the 3 Clematis above for \$2.25.

DUTCHMAN'S PIPE—Extra large heart shaped leaves which overlap like shingles, does well in sun or shade and on north side. 50c each.

GRAPE, BETA—Fine for covering pergolas and fences, grows very rapidly, bears fruit. 20c each.

HONEYSUCKLE HALLIANA (Hall's Japan)—A strong vigorous growing vine with white and yellow fragrant flowers blooming nearly all summer. 25c each, 2 for 45c.

HONEYSUCKLE, SCARLET TRUMPET—Bright scarlet trumpet shaped flowers. 25c each, 2 for 45c.

IVY, BOSTON (Amp. Veitchi)—Clings closely to the smoothest wall, covering it completely with the three-lobed overlapping leaves, like shingles. In fall, leaves turn crimson-yellow. Partial to cool places and does best on north side. 35c each, 2 for 65c.

IVY, ENGELMAN'S—We consider this the best clinging vine because it is very hardy, grows so rapidly, grows everywhere, on any side, clings to any surface, wood, brick or stone, clings to walls, porches, tree trunks, fences, etc. Foliage is deep green turning to purplish-red in the fall. The picture on the opposite side shows how it clings to walls and how lovely it makes a home look. 25c each, 2 for 45c, 5 for \$1.00.

IVY, VIRGINIA CREEPER—An old favorite, very rapid growing vine that will thrive everywhere but requires support as it does not cling. 25c each, 2 for 45c.

WISTERIA, PURPLE—Our plants are grown from blooming wood and they will bloom the next year after planting. The lilac-purple flowers come in large clusters in June and July. We have lowered the price so now you can get this, the most magnificent of all blooming vines, and it gets more beautiful with age. Extra strong vines only 50c each, 2 for 90c.

If you have a fence you wish covered, plant alternately Honeysuckle, Halliana, Honeysuckle Scarlet Trumpet, Clematis Paniculata, and Excelsa Climbing Rose. You will have flowers all summer.

Sedgwick, Kansas.

I received my Mother's Rose Collection and am very proud of them. They are the finest plants I ever saw. Mrs. J. J. Pfile.

Kansas City, Kan.

I was sure pleased with your roses. They have bloomed all summer and are still blooming (Oct. 20th). They have had the most beautiful buds I ever saw on roses grown outdoors, with long stems. I cannot tell them from roses that the florists use. Mrs. Leslie Burchfield.

Lohrville, Ia.

I just love my collection of roses I got this spring. They are beautiful, the finest I have ever had. The Iris I got of you have done just fine. Mrs. Howard Lohr.

Carrollton, Mo.

Wish to advise that I have just received my roses and will say I have seen and bought a great many roses and I have never seen any that will beat these. They are the very best, all strong, very healthy looking plants I have ever bought. L. J. Fugit.

Catale, Okla.

I ordered 7 roses from you and words can't express their beauty. Mrs. Archie Perkins.

Coatsburg, Ill.

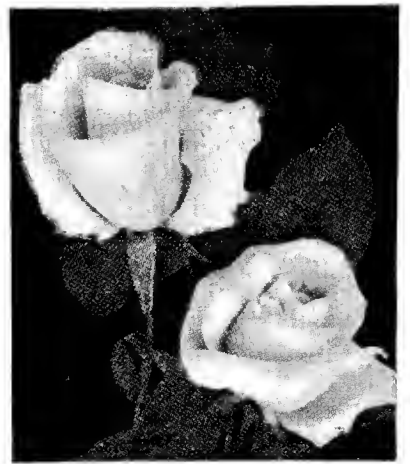

My neighbor lady called me over to her home today to see the Mother's Rose Collection she purchased of you and they are the most beautiful I ever saw. Anna E. Shanholtzer.

Three Unusually Beautiful Trees

SILVER BIRCH

CUT LEAVED WEEPING BIRCH

Our finest medium-tall (25 feet or so) tree. The delicately cut leaves on the graceful drooping branches with the gleaming silvery white bark make it beautiful summer and winter. Especially fine for lawns as it will not kill out the grass around the tree. Perfectly hardy.

the TREE of FIRE →

PAUL'S DOUBLE SCARLET HAWTHORN

Our most beautiful low-growing (10 to 12 feet) hardy tree. In May and June the double, scarlet flowers, in clusters, cover the tree so it looks like a Tree of Fire. The blooms are followed by large showy red fruits. The shiny green foliage colors beautifully in the fall. Makes a magnificent specimen tree in the lawn or as background for shrubs.

3 to 4 ft. Trees 85c each—2 for \$1.60 Postpaid
4 to 5 ft. Trees 95c each—2 for \$1.75 Not Postpaid

"ROYAL PURPLE" Maple

SCHWEDLER'S MAPLE

A magnificent tree for lawn or parking, beautiful at all seasons. In the spring the foliage is reddish-purple, in the midsummer it is purplish-green and in the fall, golden yellow. Very hardy.

The Chinese Elm is so popular because

1. Grows rapidly.
2. Attractive.
3. Planted from Canada to Mexico.
4. Especially fine for dry sections.
5. Stands heat, cold, drought and alkali.
6. Makes a wind-break in 5 years or less.

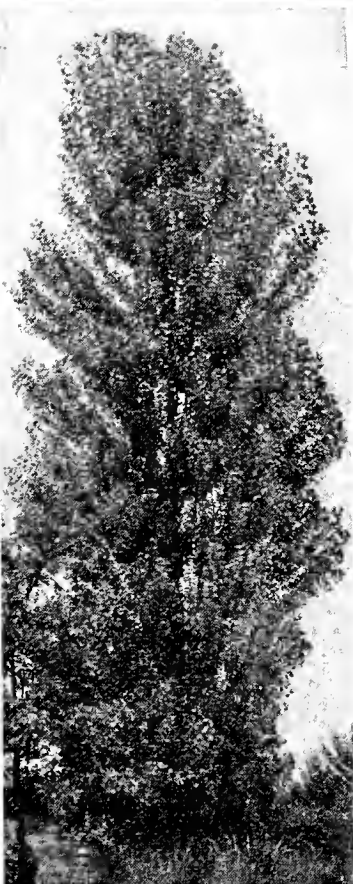

Inter-State Nurseries:

Oneida, Kansas.

Sirs: I am sending you a picture of the Chinese Elm I bought from you and planted the 15th day of March, 1932. When planted was 6 feet 2 inches tall. Now is 15 feet 6 inches tall. Picture taken 15th of October, 1932. Yours for business. S. M. Anderson. (Mr. Anderson is sitting in the shade of this tree, a growth of 9 feet 4 inches in just 7 months.)

Finest Brilliantly Colored CANNAS

A solid bed of the President makes a gorgeous sight. Another good bed is to put some Yellow King Humbert or King Midas in the center, then a row or two of President, then an outer row of Hungaria or City of Portland.

All who visited our nursery this past summer marveled at the glorious sight of many thousands of cannas in full bloom. We grew the largest, finest canna roots we ever saw. You plant some of them and THEY WILL BLOOM FOR YOU ALL SUMMER AND EVERY ONE A GENUINE LARGE FLOWERING. You will say they are the finest you ever had.

Home Is What We Make It. Why Not Have It Beautiful?

For just a few cents spent for these flower seeds, you can have a garden full of beautiful, fragrant flowers all spring, summer and fall and fresh flowers for your home and friends, as well. On every packet of seed we send out, are full planting instructions.

SWEET ALYSSUM—Easily grown, dainty little white fragrant flowers, fine for borders, porch boxes and baskets, continuously in bloom all summer. Will do well in sun or shade.

ASTERS GIANT, Mixed—We believe this is the finest assortment of the Superb Giant Flowering Asters ever offered. They are carefully blended for color, uniformity of stem and to give you blooms of the choicest colors from early summer until late fall.

BACHELOR BUTTON (Centaurea, Cornflower) Double Mixed—Showy double flowers of blue, rose, white and red on long stems, fine for cutting, produced freely from June until frost. They re-seed themselves. Grow in sun or partial shade. Very easy to grow.

BALSAM (Lady's Slipper) Finest Double, Mixed—An old favorite, free blooming plant, brilliantly colored showy flowers. This is an improved strain with larger flowers, brighter colors. Plant in full sun.

CALENDULA IMPROVED (Pot Marigold) Choicest Double Mixed—One of the choicest free flowering annuals, particularly in late fall. Also grows indoors. Various shades of yellow and orange.

CANTERBURY BELLS, Single Mixed—This is the finest type of this favorite, old-fashioned flower. They are biennial, that is, seed sown this year, blooms next year.

COCKSCOMB—The red heads are bright from mid-summer until frost.

COSMOS, Mammoth Early Flowering Mixed—Makes a fine bush of feathery green foliage covered from mid-summer until frost with very large single flowers of red, pink and white, on long stems. Re-seed themselves in the south.

CYPRESS VINE—Graceful climbing vine with fernlike foliage and lots of star shaped red and white flowers from late summer until late frosts. Does best in sunny place.

FOUR O'CLOCKS—Fine in front of porch or along side of house, blooms from July till frost. Makes a beautiful annual hedge with its glossy foliage dotted all over in the afternoon with a multitude of the fairy flowers of red, yellow, white, lilac, striped. The roots can be stored over winter like dahlias and planted in the spring.

LARKSPUR, Annual Mixed—One of the finest and showiest of all annuals, bloom profusely for many weeks, fine for cut flowers as well as fine bedder, very easy to grow. They self-sow. Remove the withered flowers promptly and they will bloom much longer.

MARIGOLD, Giant Mixed—A marvelous mixture containing the proper proportion of all the Tall Double African, Dwarf French and Little Brownie marigolds. It will give you an abundance of bloom all summer long in colors of yellow, brown, maroon, lemon, orange and striped. Very easy to grow. Fine planted with Larkspur.

MIGNONETTE, Finest Mixed—No garden is complete without this delightfully fragrant flowers of red, yellow and white, which bloom for a long time. Will bloom indoors in winter.

MORNING GLORY, Giant Japanese, Mixed—This is a greatly improved strain with mammoth flowers of gayest colors and beautiful foliage. The flowers will astonish you. A quick grower but likes a warm location.

NASTURTIUMS, Dwarf Mixed—A gorgeous mixture of our most popular dwarf flowering annual. They are so easy to grow, bloom within a few weeks after planting and continue all season, they resist heat and drought. Fine for borders, for beds and rock gardens. If you have a corner that is so hot and dry that nothing seems to grow there, just plant these nasturtiums there. This is a marvelous mixture of all the new improved colors.

NASTURTIUMS, Tall Mixed—This is a giant flowering strain, especially strong in colors of red, rose, yellow, salmon and orange. Grow everywhere.

PANSIES, California Giants Mixed—Extra large, heavy flowers, many ruffled, long stems, all colors, especially fine blends.

PANSIES, Superb Mixed—We recommend this highly as it contains large and beautifully colored flowers, an unusual range of color and markings.

PETUNIAS, Mixed—They are so easy to grow, grow rapidly, bloom early and continue until frost; stand hot, dry weather and will grow in sun or partial shade. This mixture contains a wonderful assortment of colors and a packet will give you a constant supply of flowers all summer long until frost.

PHLOX, Drummondii, Annual, Mixed—One of the easiest grown and most satisfactory of all flowers. Sow early in spring and in a few weeks the beds are a blaze of glory, all colors of the rainbow with many variations. This is a special strain of large flowers and its rich variety of colors will delight you. If you will remove the seed pods, the flowers will continue until frost.

PINKS HARDY ANNUAL (Dianthus) Double Mixed—These are very popular because they are so easy to grow and bloom so freely for so many weeks. Few flowers can equal them in beauty and profusion of bloom.

POPPIES, Annual Mixed—A wonderful mixture of the Mammoth Peony Flowered Poppies, large double fringed flowers of many colors. Sow early in the spring for best results.

PORTULACA (Rose Moss) Single Mixed—They like a hot sunny location. Low growing, not over six inches tall, they are always in bloom until frost, their brilliant colors are a joy to behold.

PORTULACA, Double Rose-flowered Mixed—An unsurpassed mixture of brilliant colors.

SALVIA (Scarlet Sage)—A plant that keeps the garden bright with its scarlet red flowers until late autumn. Makes a fine hedge or border. Grows in sun or shade.

SCABIOSA (Mourning Bride, Pin Cushion Plant) Mixed—Fine for garden and cutting, as the flowers last a long time when cut and also on the bush, long stems. They bloom from July until frost and practically all the colors.

SNAPDRAGON—Few flowers can match these for gorgeous colors, they bloom freely July until frost. The flowers are large, fragrant on immense spikes, fine for cut flowers. Cut them back in September and they can be brought indoors for winter bloom.

STOCKS, MIXED—A choice mixture containing many double flowers and a wonderful range of colors and a long season of bloom. A little old plaster mixed with the dirt around the roots is good for them.

SWEET PEAS, Genuine Spencer Mixed—Everybody loves this flower, they have such a wide range of colors and bloom so beautifully. These are the ones with large flowers. For best results, you should plant your sweet peas just as early as you can work the ground in the spring.

SWEET WILLIAM—Contains many fine colors and the plants generally live over winter.

VERBENA, Mammoth Mixed—One of the most popular flowers because it can be used in so many places, fine for borders, for beds, for window boxes, porch boxes, and

among tall growing plants like lilies. They bloom all summer until frost.

ZINNIAS, Colossal—The most popular of all annual flowers, grow everywhere, stand any kind of weather, any kind of soil, a wide variety of colors, the flowers are very large and they bloom continuously from July until frost.

ZINNIAS, Pom Pon—These make handsome little bushes a foot tall and completely covered all summer and fall with double flowers about an inch in diameter, many colors, and the colors are brighter than in the larger flowered types. Try some, you will like them.

Lawn Grass Seed

GENUINE KENTUCKY BLUE GRASS—This, we honestly believe, is one of the finest lots of genuine Kentucky Blue Grass in the country. The seed is very heavy, 21 to 23 pounds to the bushel, (the government standard is 14 pounds), it has an exceedingly high germination and purity test. Plant this seed right in the winter time, or at least sow it real early in the spring because blue grass grows best in cool weather. Allow one pound of seed for every 250 square feet. **Price: 1 pound for 30c, 2 pounds for 55c, 4 pounds for \$1.00 Postpaid.**

INTER-STATE SPECIAL LAWN MIXTURE—This is a very high grade mixture, contains the above extra fine genuine Kentucky Blue Grass, White Clover, Red Top and Fescue, all of the highest quality. Our Mixture will make a beautiful, firm, permanent lawn. Very few firms tell you what their lawn mixtures contain because so many use cheap fillers like Timothy and cleanings. But we use none of this cheap seed. We assure you this is a very high grade lawn mixture. **Price: 1 pound for 35c, 2 pounds for 65c, 4 pounds for \$1.20 Postpaid.**

THIS IS WHAT OUR CUSTOMERS WRITE ABOUT OUR STOCK

Canton, Ill.

We had wonderful luck with the 16 fruit trees we got from you. When I buy anything in the nursery line, it will be from you. Your stock is wonderful. Mrs. Emma Arnett.

Slaton, Texas.

Some of the best stock I ever received came from you and I want to get some more. Mrs. R. L. Smith.

Milwaukee, Wisc.

Our collection of roses we got from you has been the talk of the neighborhood and the Hydrangea P. G. have huge blooms. We are very well pleased. Dr. J. A. Jenner.

East Detroit, Mich.

Want to thank you for the wonderful stock that was sent me. Roses, glads and bulbs were beyond expectations. William G. Fenska.

Lebanon, Kansas.

We bought 100 Chinese Elm 2 to 3 foot seedlings last spring and they have made wonderful growth, some 6 and 7 feet tall and we lost only two. Elmer E. Thompson.

Emerson, Nebr.

We have never had shrubs grow as nice as the ones we got from you. Rose bushes are still blooming. Mrs. R. D. Hingst.

Mt. Vernon, Mo.

I want to say a few words about the Chinese Elm which I planted last spring. It was 4 feet high when planted and now it is 12 feet high with branches 5 feet across and will make a good shade to our west kitchen window this time next year. Our monthly roses are still blooming (Oct. 30, 1932). My strawberries are fine, my ramblers are fine, made a big growth this summer. Also my gladiolas were fine. I almost forgot my cherry trees made a nice growth and my zinnias were fine. F. V. Pierce.

Bucyrus, Kansas.

The roses I got from you last spring were lovely and bloomed continuously all summer. Mrs. J. L. Roberts.

Michigan City, Ind.

We bought 16 different trees from you and every one is healthy and doing fine. Jos. Rettinger.

Spring Hill, Kansas.

The iris came today in fine condition, the nicest plants I ever received. Mrs. Elmira K. Berkshire.

Mason City, Iowa.

I got some bulbs, roses and shrubs of you last spring and I never saw such nice flowers. My roses are still blooming. My neighbors and friends say they never saw so many pretty flowers. Mrs. J. H. Leonard.

Bethel, Kansas.

I am so pleased with everything I get from your nursery. My monthly roses are still blooming (Oct. 18, 1932) and the bushes are full of buds. Mrs. J. A. Riley.

Des Moines, Iowa.

The glads were the most beautiful colors I have ever seen. Mrs. Harold Dale.

Monett, Mo.

I got roses from three different places. I found that the ones I got from you put out quicker and are much stronger than the rest. I got Mother's and Dad's Rose Collections and I must say they are wonderful. Mrs. P. A. Howerton.

Eddyville, Iowa.

Our roses have done fine all summer. We won a prize at our local flower show with the Talisman. Mr. and Mrs. C. E. Chord.

for Description of Inter-State Family Orchard Pictured on Back Cover Page

Just look at the fruit pictured on the back page. Don't you wish that you had it growing on your place? Every year you spend many dollars for fresh fruit and canned fruit. Why not take a part of that money and buy this Inter-State Family Orchard?

Just think, for only **\$3.35** (the price of 2 or 3 bushels of apples) you can buy all 17 trees, less than 20c each. These are our best trees, 5 to 7 feet tall, well-branched and wonderful roots, the finest trees you ever saw. They are guaranteed to be satisfactory and to grow. Send in your order early and you will also get a free premium. See page 5.

If you bought these 17 trees even at our regular low catalog prices, the cost would be **\$6.24**. So buying the collection

saves you **\$2.89** right now. But the most important saving is that **THIS FAMILY ORCHARD WILL SAVE YOU MONEY EVERY YEAR FOR A LIFETIME**. These trees will give you fruit for a lifetime, many bushels of apples, cherries, peaches, pears and plums. We selected our best and most popular varieties, making the assortment so that you will have fresh fruit almost all year. And you will have plenty for canning, preserving, jellies, etc.

You will not have long to wait for fruit. The plums will commence bearing next year, followed in rapid succession by the peaches, cherries, apples and pear. Our trees bear young and heavily. Many folks plant fruit trees in the front yard because they give shade, have beautiful flowers and produce fruit.

EVERY HOME NEEDS PLENTY OF FRUIT. GROW YOUR OWN. YOU WILL HAVE BETTER FOOD, BETTER HEALTH AND YOU WILL REDUCE YOUR LIVING EXPENSES

EVERGREENS

Our evergreens are dug with a ball of dirt, the dirt they actually grew in. Then this ball of dirt is tightly wrapped with burlap to hold the dirt in place and we ship in special containers to protect them so they reach you in good shape.

PLANTING INSTRUCTIONS SENT WITH EVERY ORDER.

EVERGREEN GUARANTEE. We guarantee our evergreens to reach you in live growing condition but we assume no responsibility for continued growth as this depends entirely on proper care and weather conditions over which we have no control. PRICES ARE NOT PREPAID.
